

The background of the entire page is a photograph showing a large steel lattice tower for high-voltage power lines on the left, and a tall, white and red telecommunications tower on the right. In the foreground, a large array of blue solar panels is visible, sloping upwards from the bottom left towards the right. The sky is a clear, bright blue. A thick green curved line starts from the top left, passes through a green circle, and extends towards the right side of the image.

# CORPORATE PHILOSOPHY

Empowering the Energy and Telecom Infrastructure in  
Africa through Sustainable Technology and Partnerships

NETIS Group is a global leader in the telecommunications and energy industries, providing innovative solutions to meet the evolving needs of its clients. With over 16 years of experience and a presence in more than 15 countries, NETIS Group is committed to delivering exceptional results for businesses, communities, and individuals.

Our comprehensive range of products and services include telecom infrastructure deployment, energy-efficient solutions, and consulting services. We use only the highest quality equipment and materials to ensure that our solutions are secure, efficient, and sustainable. Our team of experts works closely with clients to design and implement customized solutions that meet their specific requirements.

We are dedicated to empowering energy and telecom infrastructure in Africa and beyond through sustainable technology and strategic partnerships to drive progress and shape a brighter future for all.

# MISSION & VISION

Driving Positive Change Through  
Innovation and Social Impact in Africa

## Our Vision

### Building carbon-free networks for a competitive Africa

Involves investing in renewable energy, promoting sustainable infrastructure, and fostering innovation. By reducing carbon emissions, we enhance environmental resilience, drive economic growth, and position Africa as a leader in clean energy technology.

## Our Mission

### Deploying smart Telecommunications and Energy networks to have a Sustainable impact on African social life

We are committed to making a sustainable impact across Africa by empowering communities, promoting equality, and protecting the environment. Through responsible resource management, inclusive practices, and investments in education, healthcare, and digital literacy, we strive to create opportunities, foster innovation, and build a brighter, more inclusive future for generations to come.

## Our Values

### Environment where everyone is valued and respected

Our values define our identity and guide our actions, reflecting our commitment to excellence, integrity, and sustainable growth. Built on our five core principles, PERCE: Performance, Excellence, Respect, Commitment, and Ethics, they form the foundation of our success and drive everything we do.

2023

A consortium of investors including Amethis, Africinvest, Proparco and the International Finance Corporation (IFC) acquired a majority stake in NETIS.

# A full Suite of Telecom & Energy Solutions

## Infrastructure

**Delivering the future of infrastructure in Africa.** We offer innovative fixed and mobile telecom infrastructure services, including designing & building telecom towers, fiber optic network installation, planning & optimization, and maintenance & support. Our tailored solutions optimize network performance, minimize downtime, and boost productivity. At NETIS Group, we understand the vital role of connectivity in today's business landscape. We provide reliable fiber optic services for businesses, offering consulting, design, installation, maintenance & repair, upgrades, testing & certification, training programs, and technical support.

## Energy

We specialize in designing and implementing customized energy solutions tailored to the unique requirements of each project. Our expertise encompasses mini-grid systems for rural communities and comprehensive solar solutions for residential, commercial, and industrial applications (C&I). By harnessing renewable energy sources, we provide clean and reliable energy, ensuring optimal efficiency and sustainability. With years of experience and a dedication to exceeding expectations, we are committed to delivering top-quality solutions.

## Managed Services

Our services are meticulously tailored to address the unique needs and challenges of the telecom industry. From the design and implementation of network maintenance to the supply, installation, and support of equipment, each solution is customized to maximize performance and efficiency, specifically within the GSM and fiber optic sectors. By integrating cutting-edge technologies and adhering to industry best practices, we provide solutions that ensure network reliability, security, and scalability, thereby fostering business growth and success.

# Delivering the Latest Telecom & Energy Solutions Across High- Growth Markets in Africa

**+26 000**

Telecom sites maintained

With over 26,000 telecom sites maintained, we have established ourselves as a reliable and efficient service provider for our clients. Our team of experts is dedicated to delivering the best possible service and ensuring that our clients have access to reliable and efficient telecom and energy solutions.

**+7 000 Km**

Cables Installed

NETIS Group has installed over 7 000 KM of fiber optic cables in various African countries. Our extensive network infrastructure enables us to provide reliable and high-speed connectivity to our customers.

**900**

Electrical towers maintained

We ensure the reliable operation of electrical towers, securing uninterrupted power supply and consistent access to electricity. Our experts are dedicated to maximizing efficiency and maintaining the highest standards of performance for our customers.

**+320 000**

Customers connected

We take pride in our ability to connect over 320 000 customers across various African countries. Our fiber optic services have played an essential role in providing high-speed and reliable connectivity to these customers.

**+4 000**

Solar sites built & maintained

With over 4,000 solar sites built and maintained across Africa, we are driving access to reliable and sustainable energy. Our commitment to innovation and operational excellence ensures that these sites operate at peak efficiency, while our dedicated experts work relentlessly to deliver long-term value and energy security to our customers.

**+4 000**

Telecom sites built

With extensive experience in telecom infrastructure, we have deployed thousands of sites across Africa, ensuring reliable, efficient, and high-quality connectivity for our clients.

# COMMITMENT TO SUSTAINABILITY

## A Roadmap for a Greener Future

At NETIS, sustainability is at the core of our mission to develop resilient and innovative telecommunications and energy networks across Africa.

Our strategy integrates environmental stewardship, social responsibility, and governance excellence into our business operations, ensuring compliance with all local laws and international standards concerning labour rights, environmental protection, and corporate governance.

SCIENCE  
BASED  
TARGETS

### Science-Based Targets Initiative (SBTi)

Commitment to emissions reduction targets aligned with climate science. Validation of our climate action strategy and contribution to global climate goals.

---

**United Nations**  
Global Compact

### UN Global Compact

Signatory since 2023

Commitment to human rights, labour standards, environment, and anti-corruption. Alignment with universal sustainability principles.

---

**IFC**

**International  
Finance Corporation**  
WORLD BANK GROUP

### IFC Compliance

Compliant with IFC environmental and social standards, with a risk management framework for sustainable operations.

---

**SDG** ACCELERATOR

### SDG Ambitions Accelerator Program

Actively supporting the UN initiative to align corporate goals with the SDGs and integrating them into core business operations.

# UNINET

## Univerisity of NETIS

To further this commitment, we have established UNINET for University of NETIS, a dedicated training center where our employees can develop their personal, managerial, and technical skills. Through efficient learning journeys, our employees stay up to date with the latest sustainability practices and help us achieve our sustainability goals. We believe that by investing in our employees and promoting sustainable practices, we can create a better future for our planet and our communities. Join us in our commitment to sustainability and make a positive impact today.

## Our Certifications

### ISO Multisite Certifications

NETIS maintains comprehensive multisite certifications covering Quality Management (**ISO 9001**), Environmental Management (**ISO 14001**), and Occupational Health & Safety Management (**ISO 45001**).

### EcoVadis Bronze Medal

Recognition for sustainability performance and validation of our environmental and social practices, demonstrating our commitment to continuous improvement.

### CDP Participation

Transparent disclosure of environmental impact with climate change mitigation strategy reporting, aligning with global sustainability standards.
